## **Andrew Barclay, Kilmarnock - Locomotive Works Lists**

### **Notes**

Original records for this period are incomplete. This part of the list has been compiled from a number of sources, not all of which agree.

Apart from those with specific dates all details of owners in respect of the first 50 locos are believed to have been taken from later spares orders and in some cases the owner shown may not be the original one.

Many of these locos would have names and/or numbers on despatch but most of these are not recorded in surviving Barclay sources
